## Regional funding

### How to get regional funding

The application procedure is basically the same at each of Focus Germany's nine member institutions.

The most important thing to remember is that you will need a German co-producer.

Focus Germany's members allocate around €170 million in soft loans each year to support excellent filmmaking and projects of outstanding quality.

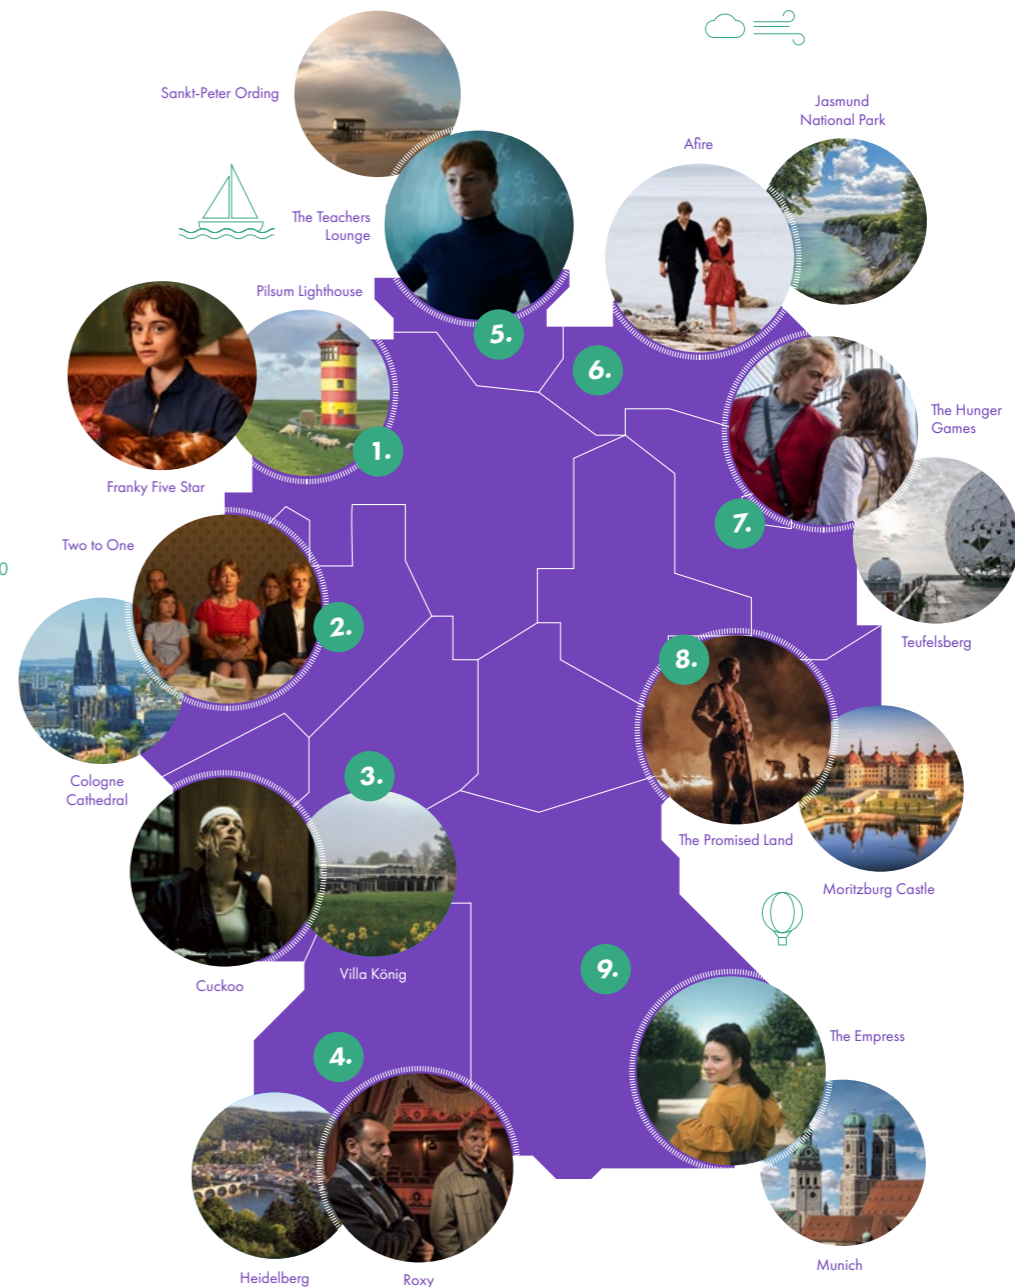

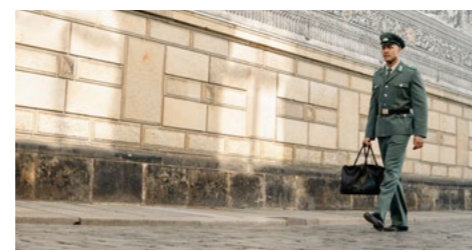

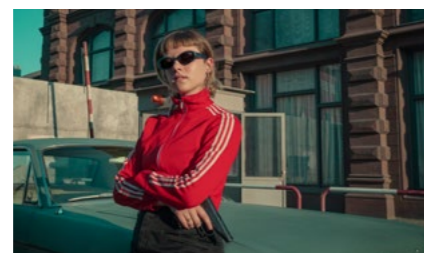

### Eligible for funding are ...

→ **Almost all genres and formats prior to shooting** – from mainstream to arthouse, from short film to high-end drama series, from animation to documentary, from drama to comedy.

→ **All phases of production** – from development and preproduction through production to sales and distribution. Some regions also have postproduction funding for VFX/CGI. Film projects likely to generate **cultural and economic 'regional effects'**.

From the seaside to the Alps, from unique rural idylls with lakeside chateaus to the vibrant spirit of big cities and latest technology, from places full of history to futuristic architecture and skyscraper skylines:

Germany offers great opportunities for making marvellous movies

# National funding

The FFA is one of Germany's national film funding institutions with an annual budget of around €61 million financed by a film levy from the industry itself. The FFA supports feature films at all stages of production and exploitation. For more information visit [www.ffa.de/funding](http://www.ffa.de/funding).

## German Federal Film Fund (DFFF I & DFFF II) and German Motion Picture Fund (GMPF)

The Office of the Federal Government Commissioner for Culture and the Media (BKM) has several programmes providing attractive funding opportunities for international co-productions. The German Federal Film Fund (DFFF) and the German Motion Picture Fund (GMPF) offer up to 25 % of production costs spent in Germany, up to €25 million in funding per film production.

### The advantages

- Non-repayable grant
- Transparent, automatic support
- First instalment paid by the start of physical production

### DFFF I

#### max. amount per project €4 million

- For international co-productions with German co-producers
- German participation of an international co-production must be at least 20 %
- At least 25 % of the total production costs must be spent in Germany

### DFFF II

#### max. amount per project €25 million

- For production service providers with responsibility for commissioned films or film sequences with costs of at least €20 million or more
- German production costs must be at least €8 million, in case of animated projects at least €2 million
- Funding of up to 25 % of approved German production costs

For more information [www.dfff-ffa.de](http://www.dfff-ffa.de)

### GMPF

#### max. amount per project €10 million

- For producers of series with total production costs of at least €30.000 per minute for fictional series and €9.000 per minute for documentary series
- For producers of films not for cinema release with total production costs of at least €25 million per film
- Funding of up to 25 % of approved German production costs
